POL 1H0

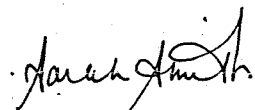

Dear Mr. Brown:

This will acknowledge receipt of your letter dated July 19, 1994 received at the College on August 2, 1994. I apologize for the delay in responding.

With respect to Ms. McConnell's letter of April 21, 1994, wherein she states "environmental sensitivities is a rather new medical condition and research into the cause and authenticity of this condition is presently being conducted"; this is an opinion of a staff member and not a statement of the College's position. As I indicated in my letter of May 31, 1994, it is not the role of the front line staff to offer to the public, individual opinions or recommendations on the value or merit of particular treatments of therapies.

I hope this clarifies your concern.

Yours sincerely,

Sarah T. Smith
Senior Investigator
Medical Inspections
